

NPCA Leadership Academy

Developing and Supporting Current and Future Leaders of the Precast Industry

Leadership NPCA

Intensive 12-month program focused on personal and workplace leadership with emphasis on assuming NPCA leadership role. Limited to 12 participants.

Executive Leader

Offers executive managers and owners an opportunity to develop personal leadership skills and explore issues unique to running precast industry companies with their peers. Culminates in 3-day executive leadership retreat. Includes core and elective courses.

Production Leader

Provides path for plant floor personnel to develop and improve their leadership skills. Includes core and elective courses and capstone project.

Effective Leader

Available to anyone interested in establishing a firm understanding of leadership and seeking to hone their leadership skills in their life or at work. Includes core and elective courses and capstone project.
