

INSIGHTS FOR INSTALLERS

# The Precast Advantage

I like quality precast concrete tanks because they are **quick to install** and require little maintenance.

We have a great relationship with our **local suppliers**. They are very accommodating and always quick to respond when we need a product.

**Quality, reliability** and trustworthy local suppliers. With precast, we know a project will benefit from these advantages, every single time.

INSIGHTS FOR INSTALLERS

# PRECAST PROUD

Precast concrete tanks and grease interceptors are **locally made** with thorough quality control by skilled workers.

You can count on precast concrete tanks for unmatched strength and durability. They sit firmly in the excavation and won't buckle. Trust precast tanks for many years of **watertight** service.

It's our reputation on the line and we're **precast proud**.

INSIGHTS FOR INSTALLERS

“ I PREFER  
PRECAST ”

I like **quality precast concrete** tanks because they will last a lifetime. Installation is simple. It makes my job fast and easy.

I have a **great relationship** with our supplier. They are knowledgeable about the product and always on time.

High quality, **ease of installation** and local suppliers I can trust. That's why I prefer precast.

INSIGHTS FOR INSTALLERS

“I PREFER  
PRECAST”

We install **quality precast concrete** tanks because they stand the test of time. We still service tanks installed by our grandfather 50 years ago.

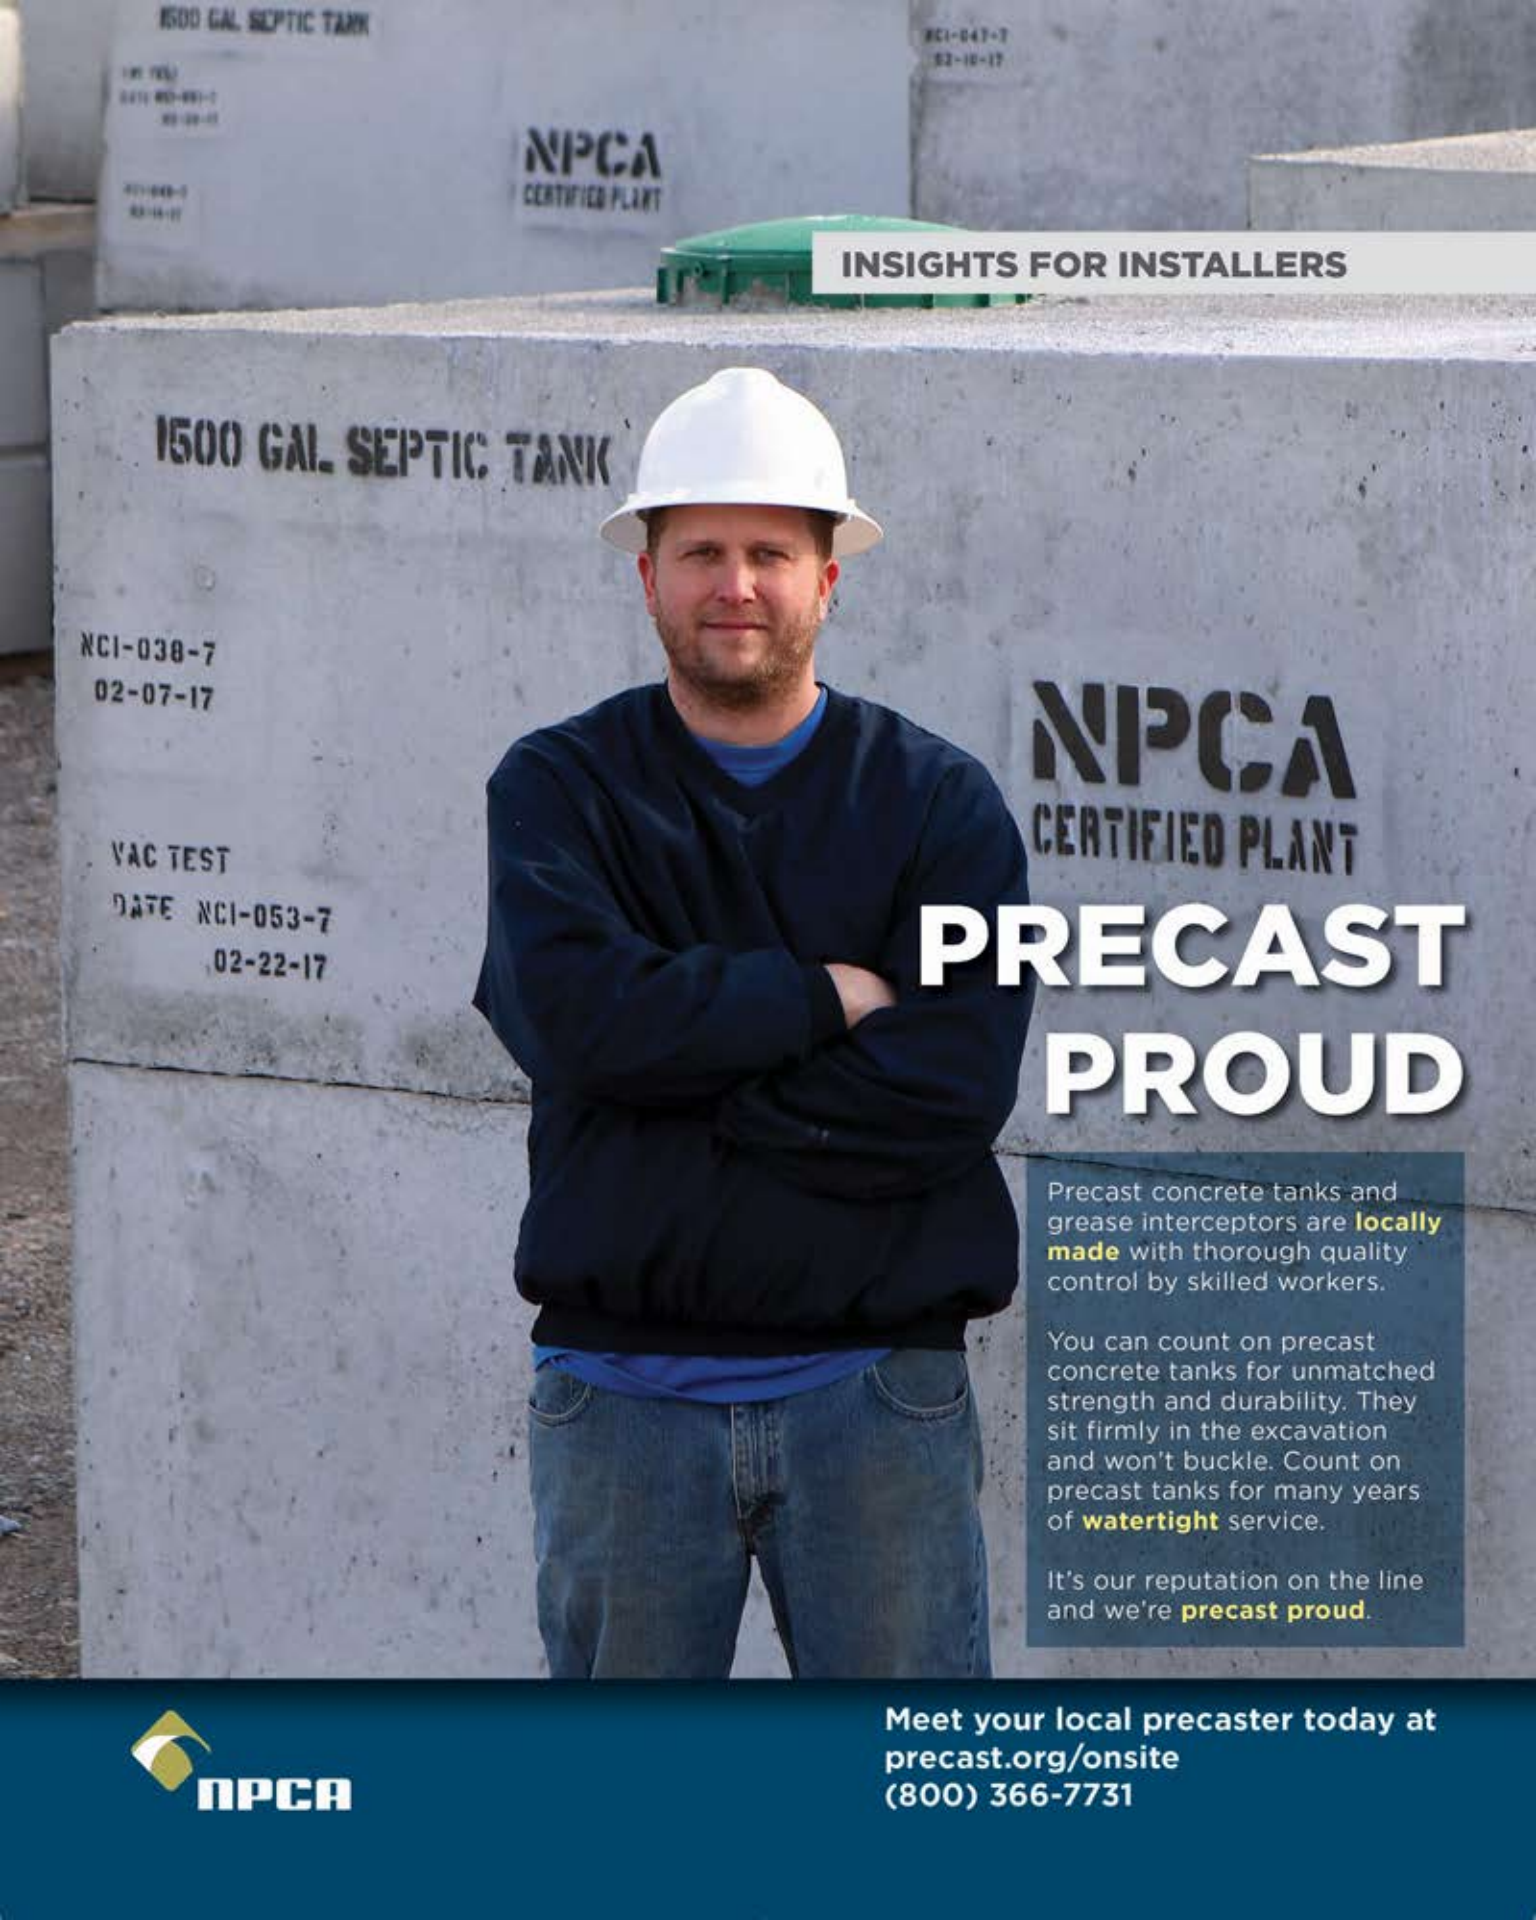

Our local precaster is a **valued partner** and has been around almost as long as we have. They are experts and help with any questions we may have.

Quality, **local expertise** and great service. That's why I prefer precast.
