

3D Production Drawing

Arrow Concrete Products, Inc.

Before “The Box”

Not everyone has literacy skills to read
and interpret shop drawings

THIS LEADS TO...

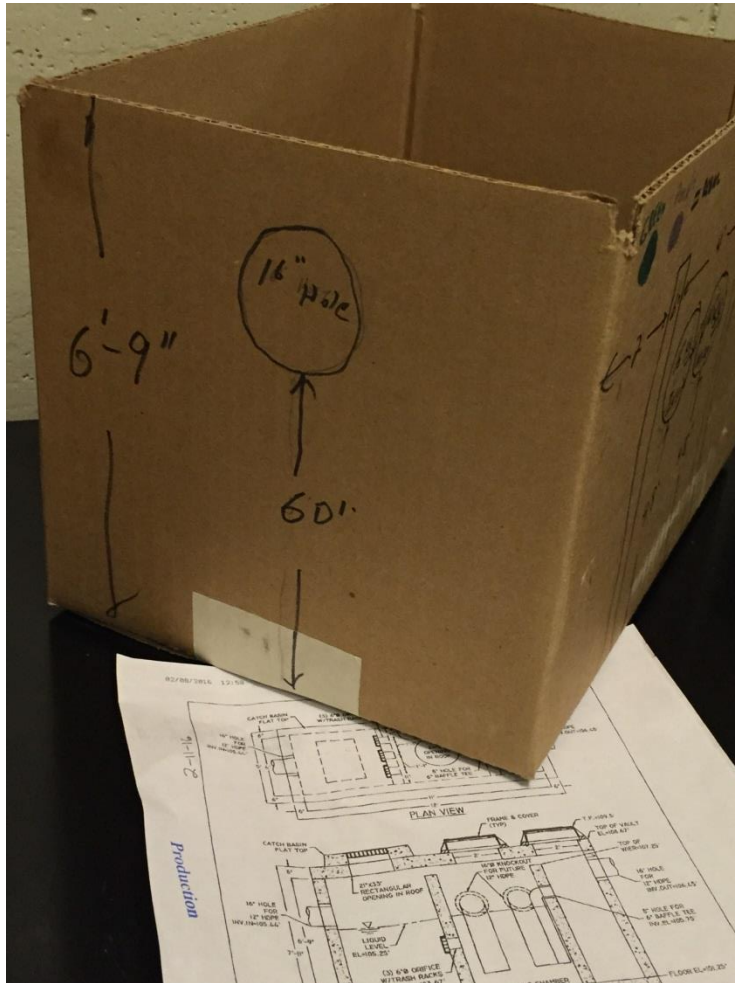

Products cast incorrectly

WHICH LEADS TO....

Higher costs when correcting or remaking products

Presenting "The Box"

A visual
representation
of the shop
drawing

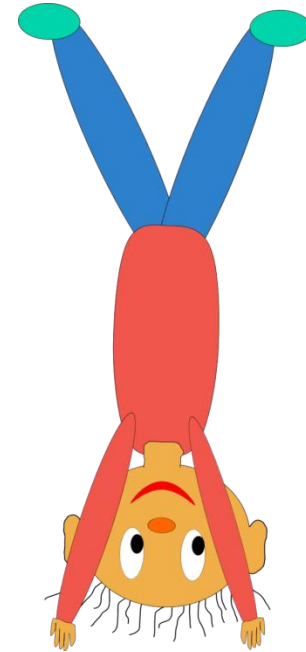

Tell us more!

- The cardboard box represents the inner core
- Draw in knockouts, inserts, and any other imbeds
- Use both “The Box” and shop drawing as tools for set-up

BONUS!

The box actually looks like the product being set-up.

No need to stand on your head!

Now...The Details

4" x 4" Box = \$0.19

8" x 8" Box = \$0.41

One last thing...

Boxes can be broken down & stored for QC purposes and then recycled

THANK YOU!
